PD2 MMP – Y&G IGV Actuator Modification

Both 9FA units at Tuanku Jaafar Power Stations (TJPS) recently concluded Major Inspections with the Compressor Enhanced Package 4 (CEP4) and Cooling Optimisation Package upgrades. The CEP4 includes modifications to the IGV blades and actuators. The new IGV actuators delivered under the CEP4 have Part Number 362A1097P116.

TJPS currently has two (2) units of the older Y&F IGV actuators with Part Numbers 362A1097P107 which can be used as spares once they are modified to be compatible with the CEP4 upgrade.

Please contact the Y&F agent in Singapore who is able to do this modification works. Their details are provided below.

ATMAS Pte Ltd
